## EJL Wireless Research adds the Alcatel-Lucent W-CDMA 9341 850MHz RRU to its Design Analysis Infrastructure (DNA-I) series of teardown reports

Salem, NH, October 22, 2010: EJL Wireless Research is announcing a new report within its proprietary DNA-I series, an Alcatel-Lucent W-CDMA 850MHz 9341 40W RRU unit.

“This is our first opportunity to look into the design philosophy for Alcatel-Lucent’s BBU/RRU platform and has allowed us to see what is driving the company’s technology roadmap within the base station industry” said founder and President, Earl Lum.

EJL Wireless Research continues to lead the wireless market research segment with innovative and cutting edge research such as its DNA-I series of products.

“We continue to be excited in having the opportunity to showcase remote radio units as well as power amplifiers, transceivers, BTS antennas, femtocells and base stations from other wireless equipment OEMs as part of our DNA-I program,” says Lum.

The following semiconductor & passive component suppliers are included in this report: Analog Device, Anaren Microwave, Coilcraft, Epcos AG, Fairchild Semiconductor, Freescale Semiconductor, Hittite Microwave, Intel, Linear Technology, Maxim Integrated Products, Micron Technology, National Semiconductor, ON Semiconductor, STMicroelectronics, Texas Instruments, TriQuint Semiconductors and Xilinx.

The report is currently available for purchase and information can be downloaded at [www.ejlwireless.com](http://www.ejlwireless.com).

**About EJM Wireless Research**

EJM Wireless Research provides proprietary, accurate and cutting-edge market analysis and consulting services on the wireless technology ecosystem. The firm focuses its research on all vertical elements of the wireless ecosystem including mobile subscribers, mobile operators, mobile handsets, mobile infrastructure and mobile content. Our goal is to provide our clients with mission critical market analysis and information.

EJM Wireless Research is managed by Earl Lum. Mr. Lum has 18 years of experience within the wireless industry including 8 years as an Equity Research Analyst on Wall Street covering the global wireless industry. The company is headquartered in Salem, NH USA. For more information about EJM Wireless Research, please visit the company's website at [www.ejmwireless.com](http://www.ejmwireless.com).
