## EJL Wireless Research adds the Ericsson GSM 900MHz DRU to its Design Analysis Infrastructure (DNA-I) series of teardown reports

Salem, NH, April 2, 2010 EJL Wireless Research is announcing a new report within its proprietary DNA-I series, an Ericsson DRU GSM 900MHz transceiver radio unit.

“This unit is a double radio unit with an integrated duplexer filter from Ericsson that is at the heart of its 2x16 BTS platform,” says founder and President, Earl Lum.

“We are excited to have the opportunity to showcase this unit as well as power amplifiers, transceivers, remote radio heads, femtocells and base stations from other wireless equipment OEMs as part of our DNA-I program,” says Lum.

Component and semiconductor suppliers mentioned in this report include: Aeroflex, Analog Devices, Anaren Microwave, Bourns, Epcos AG, ETAL, Fairchild Semiconductor, Freescale Semiconductor, Infineon Technologies, International Rectifier, Kemet, Maxim Integrated Products, Murata Electronics Co., Ltd., National Semiconductor, NDK, NXP Semiconductors, ON Semiconductor, Pulse Engineering, Skyworks Solutions, STMicroelectronics, Texas Instruments, TriQuint Semiconductor, and Vishay Siliconix.

### **About EJL Wireless Research**

EJL Wireless Research provides proprietary, accurate and cutting-edge market analysis and consulting services on the wireless technology ecosystem. The firm focuses its research on all vertical elements of the wireless ecosystem including mobile subscribers, mobile operators, mobile handsets, mobile infrastructure and mobile content. In addition, the firm provides analysis across horizontal

technology suppliers including RF semiconductor materials, RF semiconductor/components, subsystems and OEMs. Our goal is to provide our clients with mission critical market analysis and information.

EJL Wireless Research is managed by Earl Lum. Mr. Lum has 16 years of experience within the wireless industry including 8 years as an Equity Research Analyst on Wall Street covering the global wireless industry. The company is headquartered in Redwood City, CA. For more information about EJL Wireless Research, please visit the company's website at [www.ejlwireless.com](http://www.ejlwireless.com).
