EJL Wireless Research adds the XOHM ZyXEL WiMAX CPE to its Design Analysis Infrastructure (DNA-I) series of teardown reports

Redwood City, CA, October 20, 2008: EJL Wireless Research is announcing a new report within its proprietary DNA-I research series, the XOHM ZyXEL WiMAX customer premise equipment (CPE) unit.

"With the recent official launch of the XOHM Network by Sprint in Baltimore, the next generation of broadband wireless technology is now available to consumers in the United States," says founder and President, Earl Lum

"We are excited to have the opportunity to showcase the first mobile WiMAX 802.16e CPE product in the U.S. While we are disappointed that this first product from XOHM does not have integrated WiFi capabilities, we expect that more advanced CPEs and WiMAX femtocells to become available in 2009," says Lum.

Component and semiconductor suppliers mentioned in this report include: Diodes Inc., Freescale Semiconductor, Infineon Technologies, Macronix International, Maxim Integrated Products, Monolithic Power Systems, national Semiconductor, NXP Semiconductors, ON Semiconductor, PMC Sierra, Samsung Electronics, SANYO Electric Co., Ltd., Sequans Communications, Silicon Labs, Texas Instruments, TXC Corporation, Winbond Electronics Corp.

Other wireless infrastructure equipment products such as femtocells, power amplifiers, transceivers, remote radio heads and base stations are also available as part of the DNA-I research program.

About EJM Wireless Research

EJM Wireless Research provides proprietary, accurate and cutting-edge market analysis and consulting services on the wireless technology ecosystem. The firm focuses its research on all vertical elements of the wireless ecosystem including mobile subscribers, mobile operators, mobile handsets, mobile infrastructure and mobile content. In addition, the firm provides analysis across horizontal technology suppliers including RF semiconductor materials, RF semiconductor/components, subsystems and OEMs. The company's goal is to provide its clients with mission critical market analysis and information.

EJM Wireless Research is managed by Earl Lum. Mr. Lum has 15 years of experience within the wireless industry including 8 years as an Equity Research Analyst on Wall Street covering the global wireless industry. The company is headquartered in Redwood City, CA USA. For more information about EJM Wireless Research, please visit the company's website at www.ejmwireless.com.
